Dear Josh:

I just read the carbon of the letter from me that went off to you a couple of days ago. I didn't mean to give the impression that I don't intend to come to your lab at all. I meant that I would come in June rather than February.

When you get invited to the President's house do they pay expenses of the travel? In any event I see that you didn't make the trip from Japan.

Dozo Yoroshiko.

Jim
